b.liv off with those heads black-head serum gel contains tea tree oil, witch hazel extract and aloe vera extract to soften dead skin cells, and effectively unclog pores to remove excess sebum, gradually eliminating blackheads and pimples in 14 days. (2505 5023)

Green Apple Peel Sensitive by **Juice Beauty**, part of its clear skin range for summer, is designed for sensitive blemished skin desiring an improved complexion. Containing an alpha hydroxy acid complex of certified organic apple, lemon and grape juices, coupled with raw cane sugar, it gently yet thoroughly exfoliates and brightens your skin. Its enriched vitamins provide needed hydration. Best for use in climate change. (2833 5157)

Murad Oil-Control Mattifier SPF 15's three-in-one formula not only reduces shine on contact, but has also been proven to prevent oil production by up to 78 percent for over eight hours. Its Oil-Control Complex provides a long-lasting matte yet moisturized finish while evening the appearance of pores, making the lotion an ideal makeup base for summer use. The willow bark extract manages breakouts, and the argan extract reveals softer skin. (2317 1009)

Zino Bubble Mask is both fun and functional. Its oxygen molecules dissolve impurities by transforming into foam upon contact with water, while plumping the skin with oxygen. (8102 1098)

Facial spring-cleaning

Humidity, sweat, pollution, combined with natural oil production, form the ever-unwanted grime on your face. Worse still, it often leads to intolerable, confidence-smashing acne.

Compiled by Carmen Yam

La Roche-Posay Effaclar Duo helps reduce blackheads and pimples by supplying Linoleic Acid deep into hair follicles to suppress the production of sebum. Other active ingredients include vitamin B3 to relieve redness, and Piroctone Olamine to prevent acne-causing bacteria. Its gel-cream texture provides around-the-clock hydration. (3180 1555)

Dr. Jart+ Acne-X Trouble Care Mask contains rice bran and green tea extracts to purify the skin, as well as tea tree oil to disinfect and combat acne. The specially designed sponge-like texture of the mask helps accelerate the skin's absorption of hydrants and nutrients. (2234 0878)

M LAB Blemish Control Spot Treatment, formulated with 61 percent clinically active ingredients including Epilobium Fleischeri extract and Montmorillonite, helps to accelerate the reduction of redness and treatment of blemishes, while pore purifiers dissolve and prevent future breakouts. Unique rollerball packaging allows the precise application to individual blemishes. (2265 7176)
